PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech) with a strong foundation in software development and web technologies. Proficient in the MERN stack and experienced in working with databases such as MongoDB and MySQL. Familiar with programming languages, including C and Python. Possesses good problem-solving skills and a keen interest in building efficient, scalable, and user-friendly applications.

WORK EXPERIENCE

Cyber Security Intern

March, 2025 – June, 2025

Qnayds LLP

- Gained hands-on experience in cybersecurity fundamentals, including network security and system protection.
- Identified vulnerabilities in web applications and learned methods to mitigate security risks.
- Performed basic penetration testing and ethical hacking exercises in a controlled environment.
- Understood and applied security best practices for data protection and secure coding.
- Participated in a one-week Cyber Security Summer Program, enhancing knowledge of real-world security challenges.

Full Stack Developer Intern

ICT Academy Of Kerala

December, 2024 – January, 2025

- Developed and maintained dynamic web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
 - Designed and implemented RESTful APIs to enable seamless communication between frontend and backend systems.
 - Worked with MongoDB and MySQL databases for efficient data management and query optimization.
 - Debugged and resolved application issues to improve performance and user experience.
 - Collaborated with team members using version control tools and followed best practices in software development.
-

EDUCATION

Bachelor of Technology in Computer Science

- 2023-2027

Lourdes Mount Public School

- Graduated: March 2023

PROJECTS

LIBROTRACK – Library & Bookstore Management System

- Developed a full-stack web application to manage library inventory and bookstore operations.
- Implemented features such as book listings, check-in/check-out, and real-time stock updates.
- Designed an intuitive user interface to simplify inventory tracking and improve usability.
- Reduced manual errors and improved efficiency in book management processes.
- Utilized MERN stack technologies to build a scalable and responsive system.

Alumni Management System – Alumni Networking & Engagement Platform

- Designed and developed a platform to connect alumni with their educational institution.
- Built features to enable alumni interaction, profile management, and achievement sharing.
- Created a user-friendly interface to ensure seamless navigation and accessibility.
- Strengthened engagement by allowing alumni to actively participate in institutional activities.
- Focused on building a scalable ecosystem to support long-term alumni networking and growth.

ZYRA – AI-Based Website Development Assistant

- Explored the use of Artificial Intelligence in website development through prompt-based code generation.
 - Identified limitations in existing tools, including lack of focus on UI/UX quality.
 - Analyzed challenges such as single-stack dependency and complex generated code structures.
 - Proposed the need for user-centric solutions to simplify development for non-technical users.
 - Aimed to enhance usability, flexibility, and design quality in AI-assisted web development tools.
-

SKILLS

- **Programming Languages:** Python, Java, JavaScript
 - **Web Technologies:** HTML5, CSS3, REST APIs, MERN Stack (MongoDB, Express.js, React, Node.js)
 - **Databases:** MongoDB, MySQL
 - **Cloud & IoT:** AWS (S3, Lambda, IoT Core), ESP32, Ultrasonic Sensors, Servo Motors
 - **Tools & Platforms:** Git, GitHub, VS Code, PyCharm
 - **Languages:** Malayalam, English, Hindi
-

CERTIFICATIONS

- **TCS iON Career Edge – Young Professional Course**
- **Guided Learning Experience: Using Generative AI for Software Development – IBM SkillsBuild (2025)**
- **MongoDB Indexing Design Fundamentals**
- **Code Generation and Optimization Using IBM Granite**
- **AWS Academy Graduate – Generative AI Foundations**
- **Mobile App Development Using Flutter – Infosys Springboard**
- **Python Fundamentals – Infosys Springboard**
- **Java Programming – Infosys Springboard**
